Note: Raiffeisen BANK sh.a., defines the interest rate for your loan based on T-Bill (1-year) for Loans in ALL / Euribor (1-year) for Loans in EUR plus a spread rate for the entire loan tenor. The interest on the 12-month Treasury Bills results from the auctions held, which are announced on the same day of the auction and are published on the respective websites of the Ministry of Finance and Bank of Albania. Euribor is the Interbank Interest Rate for the EURO. This rate is calculated by the European Banking Federation (FBE) and is published every business day at 11 a.m. (Belgian time). Euribor rates change every working day, and you can find them published in RBAL counters. In cases when the Base Rate is negative, the bank will consider it 0 in the interest calculation. *Only for premium customers who receive their salary in EUR ** Scorecard calculation (which defines the low or acceptable risk) is based on customer data: socio-demographic, financial, customer relationship with the bank and the correctness of repaying obligations toward credit institutions. Based on these criteria and the financial analysis will be determined loan amount and tenor. Clients with a minimal risk have a score level of 0.5-2.5, clients with a moderate risk have a scoring level of 3, while clients with an acceptable risk have a scoring level of 3.5 - 4.0.
