The interest on the 12-month Treasury Bills results from the auctions held, which are announced on the same day of the auction and are published on the respective websites of the Ministry of rinance and dans of Atomica, income when the web requires the will consider it 0 in the interest calculation.

"Scorecard calculation (which defines the low or acceptable risk) is based on customer data: socio-demographic, financial, customer relationship with the bank and the correctness of repaying obligations toward credit institutions. Based on these criteria and the financial analysis will be determined loan amount and tenor. Clients with a minimal risk have a score level of 0.5-2.5, clients with a moderate risk have a scoring level of 3, while clients with an acceptable risk have a scoring level of 3.5 - 4.0.
